Freebords ... snowboard the streets

We started out wanting to snowboard all year, wherever and whenever we wanted. And so, we designed a board that gave riders the control of a snowboard on pavement. As Freebord has evolved, so has our goal: bring as much control as possible to riding on pavement.

Our riders can carve, slide, slow down and stop whenever they want. They can go as fast or as slow as they want. They can bomb the steepest of streets or ride mellow cruisers; hit big open roads or the narrowest of sidewalks.

On a Freebord, riders have the control they need to ride what they want and how they want.
